BONES, BONES, BONES!

...in this issue
my mum
visits. (ERIC)

A couple of days ago Eric's Mom came to 2B. Mrs. Lewandowski was very nice and she showed us broken bones and broken fractures. I could not believe that a child's bone could heal very fast at all because adults broken bones don't heal very fast. I have learned you should learn not to break your bones.

VIKAS

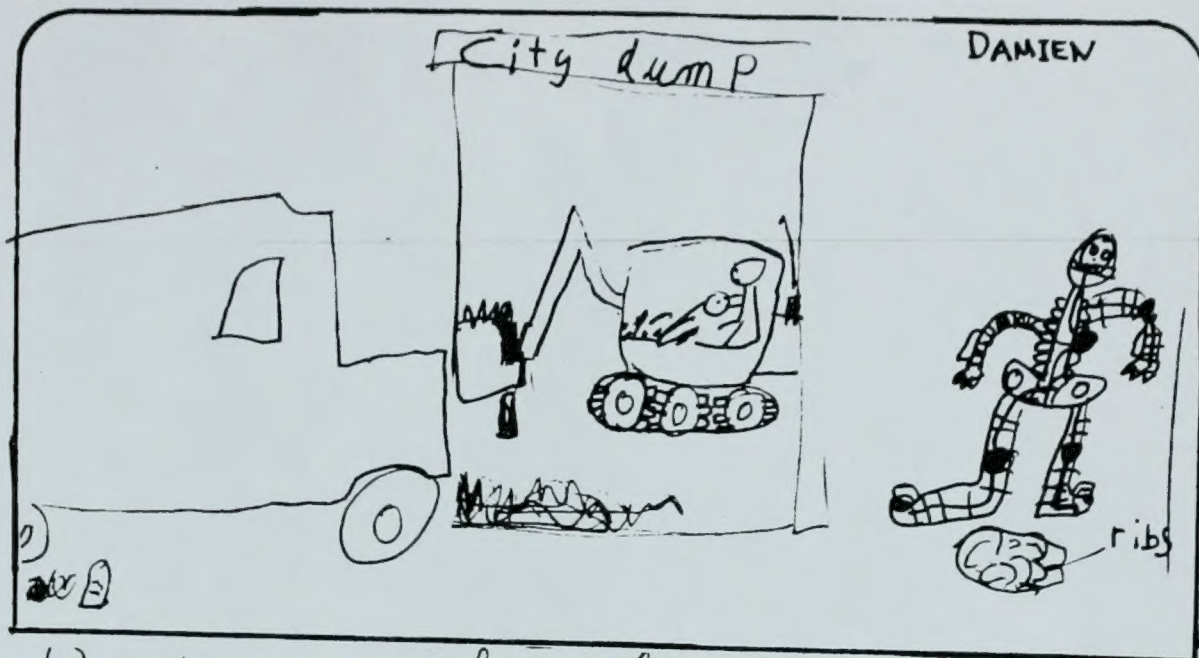

In this issue:

Bones

True Stories

Broken Bone Stories.

One day a boy broke his shin bone.
 "A ooooo-oooo ch"!!! So some doctors
 put him on crutches and his
 leg in a cast. Wow, that must have
 hurt! I would not have wanted
 that to happen to me. Now I'll tell
 you a story! One day my trash man
 was driving down the street. He
 got to the dump, he got out of his
 truck. Then the truck started to
 roll. He tried to hit the brakes and
 then when he tried to get in the truck, it
 went over him. It broke his ribs. Oooo
 That hurt too! Damien.

True Stories!!Ow! My Head.

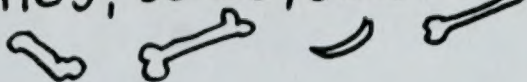

"Freeze." Said Mike Mauroviche.
 "Now we're going to play tag." said Mike.
 Mike. "Damien you're it." said Mike.
 Now we started the game. Damien was now at my heels! "Woops!" I slipped into a corner head first, and cracked my head open! I went in Hospital with dad after we went home. I went home with 10 stitches, but no broken bones.

Andrew

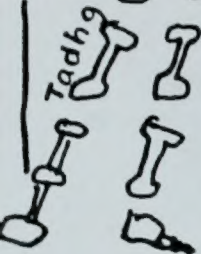

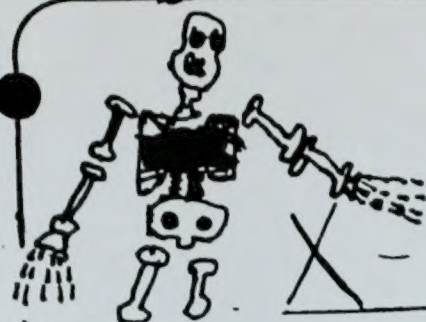

One day I was jumping on my couch, When I fell and hit my arm on the armrest. I did not think it was broken but my mum thought it was. So she took me to the hospital. There I got an x-ray of my arm. It was broken! So my mum took me to the emergency department to get a cast on. I went home. I had to wear the cast for about a month. I feel fine now.

Eric

Bones, bones, bones.

X-rays and Bones.

Dr. Latour taught us a lot of things. 1. Calcium feeds your bones. 2. When you have a cast on, there is a special machine to take your cast off and when it comes close to the skin it stops. 3. Mrs. Lewandowski showed us some X-rays.

Kyle

Hello, this is David Halber telling you the latest news in 2B!

Mrs. Lewandowski just had a visit to tell ^{us} 2B about the body. There also is going to be a talent show! So anybody in 2B who is interested sign up in the gym office with Mr. Morvick.

André reports on:

hip bone → 

Mrs. Lewandowski's visit to 2B.

We saw x-rays on broken bones and good bones. I heard about a break called the green stick fracture. The hip bone looks like this and the knee, the foot too. I never had a broken bone before. The Arm looks like this. The foot looks like this - it is nice to see doctors.

Broken Bones in 2B!

By: Stuart

Once Mrs Lewandowski came to S.H.S.. She said a lot of things about hip disease and broken bones. That reminds me about L^(great) Shanahan me ... Eric. We all had broken bones. Every story was nice. I'll tell you the stories. ^{1.} Me. ^{2.} Eric. ^{3.} L Shanahan. I was ^{4.}

One day I, Stuart.. Weigensberg, was playing peacefully and my brothers! ask me if I now how to do a flip! I said no! They said here's your chance. They took me and flipped me. I broke my arms. 2. Eric I forget. 3. Laura she was playing Baseball and broke her nose.

(The old friends) The bones

Ladies and Gentlemen

Mrs. Lewondowicki came to our class.
It was fun to hear about the bones
Peter got hip disease. It didn't surprise me
because I got it too. My hip disease
went away when I was 6 but I don't
know when Peter's hip disease went away

The End

Daniel

I learned callus helps your
bones grow back to gether. your
bones help make the shape of your face.
I learned that there was a broken-
bone that was such a thing as a green
stick fracture. I want to know where the call
us come from. How is the bone marrow mad
e? Anson

I saw a collar bone. It was broken. I saw
some ribs. They looked like a jail. I saw
some x-rays of the feet of an eight year
old boy they were very big feet.

Tadhg

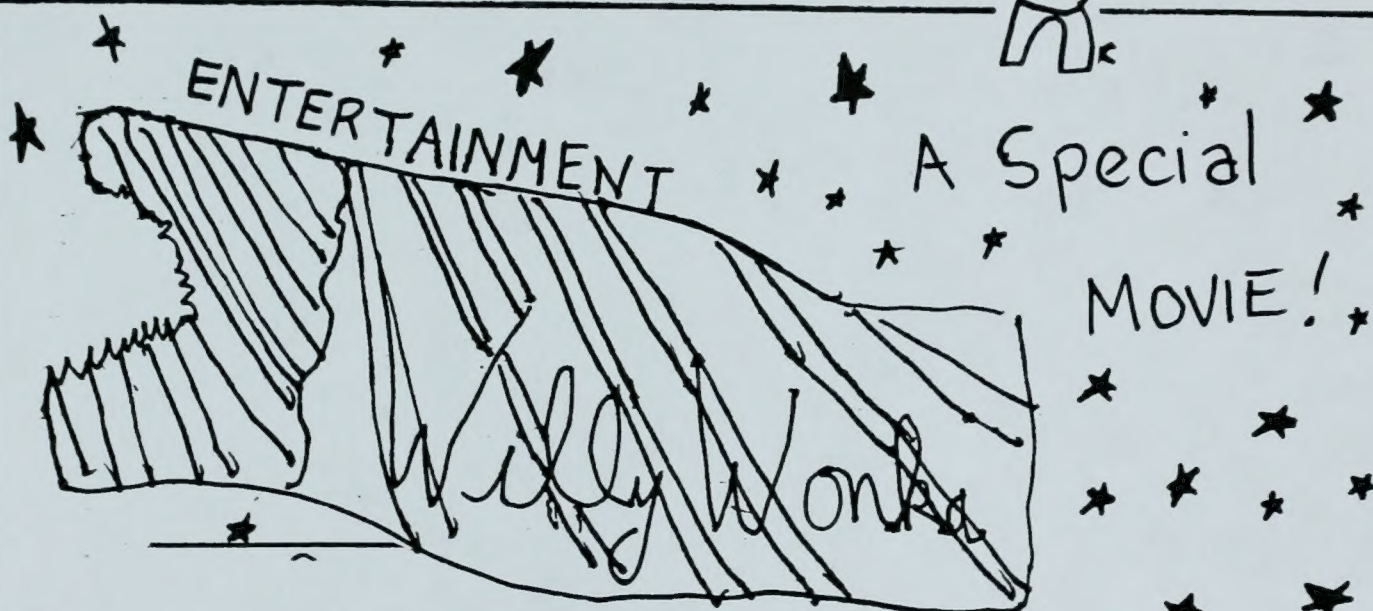

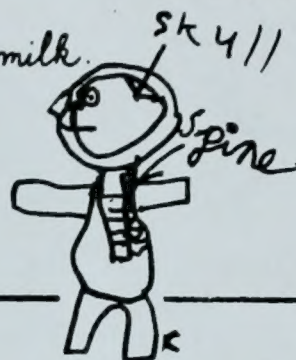

Dr Latour

Dr Latour brought X-rays of bones. Some bones were broken bones and one x-ray was Eric's broken arm.

Chris

My bones are important. They protect my body. If I didn't have my bones I would not live because I wouldn't have any thing to protect my Brain and heart. Calcium makes my bones grow. I get calcium from milk. My bones are strong because I drink lots of milk.

gay

On Sunday, Feb. 17 2:00 pm.
Willy Wonka and the Chocolate
Factory will be playing at Cinema
I 99 if you want to go to it
call 489-5559 5560 Sherbrooke
West.

CARNIVAL '85!

A Week full of special events!

Recess Games:

Monday - Tug of War!

Tuesday - Obstacle Course!

Wednesday - Sack Race!

Thursday - Treasure Hunt!

Come out and play for your house!

Dress warmly.

Don't forget -

Friday - SKI TRIP!

DRESS UP!

Tuesday is "tacky tie" day.

Find your father's silliest tie and wear it to school.

#

Thursday is free dress -

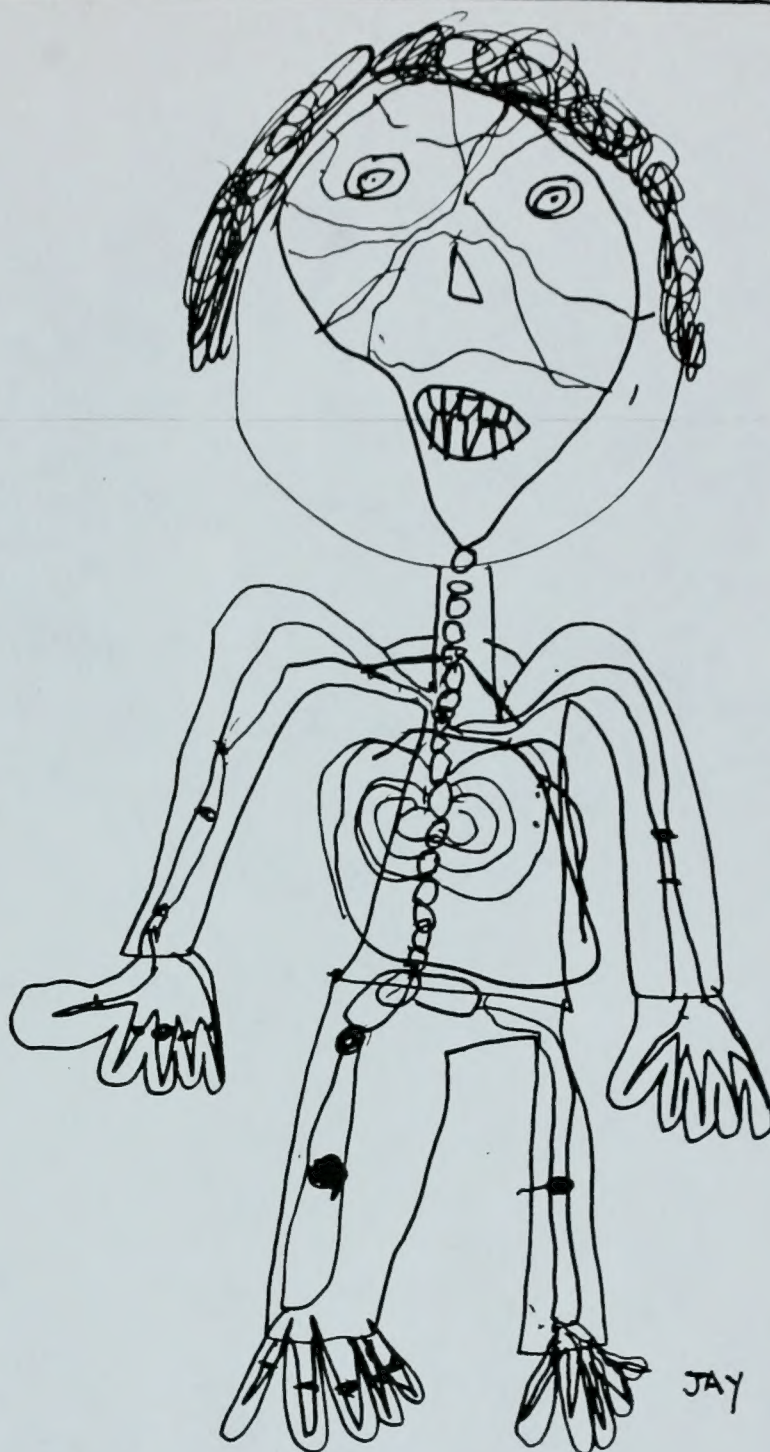

but only if you wear a bit of red. (The more red, the better.)

#

X - groups of
separated into groups of \div

$x \div x \div x \div x \div x \div x \div x \div x \div x \div$

The boys have started multiplication. Daily drill of the basic facts would be beneficial. Flash cards are an inexpensive practice tool.

This week, ZB will visit the science labs to see a frog dissection (!). Mr. Monty Krindle will show how muscles work.

The boys will be beginning in-class projects on the five senses. They should keep their eyes peeled for books or articles on taste, touch, sight, hearing or smell.
